PROFILE

Devoted Web Developer with experience in freelancing, delivering high-quality applications and websites that blend innovative design with efficient functionality. Skilled in Front-End development using HTML, CSS, JavaScript, and React to create responsive, user-centric interfaces. Proficient in Back-End technologies including Express.js, PostgreSQL, and MongoDB, with a focus on security, performance, and scalability. Committed to building robust, reliable systems that prioritize user experience. Known for excellent customer service, continuous learning, and a passion for delivering solutions that exceed client and user expectations.

EXPERIENCE

Freelancing – Web Developer, ✎Live | Front-End Repo ⬤ | Back-End Repo ⬤   *April 2023 – Present*
Technologies: React, Node.js, Express, PostgreSQL, MongoDB, RESTful APIs, Git, GitHub, Render
- Developed full-stack web applications using the **PERN** and **MERN** stacks.
- Created and integrated **RESTful APIs** for seamless communication between the front-end and back-end.
- Built secure authentication systems with **PostgreSQL** or **MongoDB**, handling user data such as usernames, emails, and hashed passwords.
- Designed and implemented user authentication features including **sign-in**, **registration**, and **logout** forms.
- Tested and debugged API functionality using **Postman** for data verification and error handling.
- Deployed the full-stack application on **Render** for scalable, production-ready hosting.
- Managed projects, codebase version control and collaboration using **GitHub**.

Freelancing – Email Developer   ✎Live | ⬤ Repo   *Jan 2022 – Present*
Technologies: HTML, CSS, JavaScript, Bootstrap
- Created **interactive and responsive email campaign templates** and **landing pages**.
- Developed **responsive email templates** using HTML and CSS, ensuring compatibility across various email clients.
- Used **JavaScript** and **Bootstrap** to build dynamic and mobile-optimized user interfaces.
- Deployed portfolio projects on **GitHub**, ensuring easy accessibility and showcasing previous work.

Freelancing – Front-End Developer   ✎ Live | ⬤Repo   *Dec 2022*
Technologies: HTML, CSS, JavaScript, Node.js, Express.js, Mailchimp API, RESTful APIs
- Built a **landing page** with a **sign-up form** that integrates with **Mailchimp** to collect email addresses for marketing purposes.
- Implemented logic using **JavaScript** (including If statements) to display success or error messages based on user registration.
- Ensured the page was fully responsive and optimized for both desktop and mobile devices.
- Deployed the project to **Render** and integrated the **Mailchimp API** for efficient email collection and management.

KEY SKILLS

- **Stacks & Frameworks**: MERN, PERN, React.js, Express.js, Node.js, Vue.js
- **Databases**: PostgreSQL, MongoDB
- **Web Technologies**: HTML5, CSS3, JavaScript, Bootstrap, TailwindCSS
- **APIs & Integration**: RESTful APIs, Mailchimp API
- **Version Control**: Git, GitHub
- **Development Tools**: Postman, Render, Visual Studio Code, Git Bash
- **Soft Skills**: Honest, Problem Solving, Communication, Teamwork, Attention to Detail, Creativity, Self-Starter
- **Other**: Web Accessibility, UI/UX, Deployment

EDUCATION

Zero To Mastery Online Learning, Certificate,	*Remote*	*2021-2024*
The Complete 2023 Web Development Bootcamp, Certificate,	*Remote*	*2023*
